Payper Colours

Les couleurs Payper.

GLOSSAIRE D'IDENTIFICATION DES CODES COULEURS.

Outil utile pour comprendre rapidement à quoi correspondent les teintes des articles du catalogue. La clé réside dans les deux premiers chiffres du code couleur, qui identifient la famille d'appartenance. Par exemple : si le code catalogue est **03006**, le **03** initial indique qu'il s'agit d'une variante de rouge.

Payper colours.

COLOUR CODE IDENTIFICATION GLOSSARY.

A useful tool to quickly understand how to match the shades of the items in the catalogue. The key lies in the first two numbers of the colour code, which identify the family they belong to. An example: if the catalogue code is **03006**, the initial **03** indicates that it is a shade of red.

Une couleur pour chaque exigence.

La couleur est l'une des caractéristiques qui rendent un vêtement unique. C'est pourquoi nous proposons des articles dans plusieurs variantes de couleurs, afin de permettre à chacun de choisir et de s'exprimer au mieux. Grâce à ce glossaire, il sera donc facile d'associer le code couleur à la teinte correspondante.

Bien entendu, les teintes représentées sont à considérer comme indicatives, car la couleur n'est rien d'autre qu'une perception visuelle, qui varie en fonction de la lumière et du type des matériaux utilisés.

Aggiornato al 01.03.2024.

A colour for every need.

Colour is one of the features that makes an item of clothing unique. This is the reason we offer items in multiple colour variations, to allow everyone to choose and fully express themselves. With this glossary it will therefore be easy to associate the colour code with the respective shade.

Obviously, the shades given are to be considered indicative, as colour is nothing more than a visual perception, which changes depending on the light and the type of materials used.

Updated on 03.01.2024.
